

First-time Homebuyer?

That's great! Congratulations! You've taken the first step in the process. Now comes the fun part. Since 2003, I've been heavily involved in not only the real estate business, but also the mortgage business. I served in many capacities throughout the mortgage process. So let me give you some helpful information and advice in obtaining your first mortgage. There are a lot of programs out there, and it can be overwhelming. I can make it simple for you as possible. Some programs will allow you to come with only \$50 out of pocket at closing! Your very own home for \$50? Now all you have to do is call or email me so I can tell you about it! What have you got to lose? (512)736-6623 or Sam@samhasty.com.
